Joint IACD/CDS International Conference

cases have almost quadrupled to 422 million in 2014 from 108 million in 1980. Diabetes now affects nearly one in 11 adults with high blood sugar levels linked to 3.8 million deaths every year.

America's Shrinking Middle Class: A Look at Changes Within Metropolitan Areas

[Pew Research](#) | [READ STORY](#)

The American middle class is losing ground in metropolitan areas across the country, affecting communities from Boston to Seattle and from Dallas to Milwaukee. From 2000 to 2014 the share of adults living in middle-income households fell in 203 of the 229 U.S. metropolitan areas examined in a new Pew Research Center analysis of government data.

The World's Carbon Footprint Revealed

[Daily Mail](#) | [READ STORY](#)

There's now an interactive graphic that shows your country's emissions as well as the fossil fuels it uses, such as coal and petroleum, to see how it is contributing to clean energy. It lets you click on countries to reveal those with the largest carbon footprints, with China leading the way spewing out 10540.8 million metric tonnes of the gas every year.
