

Static meeting met on Monday January 22nd 2024 5:30

Minutes were approved unofficially

Treasure's report was \$689.92 this is down \$214 dollars will look into this question.

Old Business

Cookbook fundraiser update we still have 4 cookbooks.

Calendar update we still have 32 calendars.

Sticker fundraiser - Do a competition starting in March purchasing a small amount to start with. Provide an enlarged circle or shape so they can draw in it and then they can send it back in for us to digitalize it. We will have this due by May 1st so we can sell at fair time.

We will be doing a display workshop on February 17th to make a display with chicken wire for our posters and pictures in the static area. Corry would like to not spend any more than \$100 on this project.

Chris will reach out to Ken Loss and see if he is willing to be auctioneer at the indoor auction.

We would like to start the indoor auction intent in the February newsletter making it due May 1st. We will be requiring \$5 each to be delivered with the intent to sell. We will hold on to that \$5 with the intent to sell and have them available on interview day to hand back if they do not end up selling.

Outdoor auction change of venue due to fair board no longer having the free stage. Talked about doing it outside of the Trade Center between the ag building and Trade Center. The question was brought up about inclement weather what we would do in this instance. Chris will talk with fair board again next month to narrow down a place and a plan.

Talked about doing workshops for scrapbooking, leather, photography, cooking, wood, baking, and cake decorating sometime between February and April just to give those kids a time to work with others and expand their project.

Discussed what we would like to see for the area of static items at the Trade Center displays like shelves, quilt saddle, ladders, and the screen that we are making to name a few.

Indoor display setup July 18th at 5:30

Next meeting will be March 11th at 5:15 and the Extension Office.
