If a drug take-back event is not accessible in your community, follow these [Office of National Drug Control Policy](#) recommendations:

- Take your prescription drugs out of their original containers.
- Mix drugs with an undesirable substance, such as cat litter or used coffee grounds.
- Put the mixture into a disposable container with a lid, such as an empty margarine tub, or into a sealable bag.
- Conceal or remove any personal information, including the prescription number, on the empty containers by covering it with black permanent marker or duct tape, or by scratching it off.
- Place the sealed container with the mixture and the empty drug containers in the trash.
