

## Teaching & Learning Faculty Workshop

*Sponsored by MSU Extended University, Montana NSF EPSCoR,  
MSU Extension, Office of the Vice President for External Relations,  
and the MSU Teaching & Learning Committee*

# Developing Public Outreach Strategies for Your Grant Proposal

**I**t's not enough just to conduct great research; most successful grant proposals must also include broader impacts—how your work will be shared with the larger community.

Join us for this panel discussion about community engagement, public outreach and broader impacts, including ideas for how to reach youth and families, teachers, legislators and decision-makers, and more.

Our panelists will span the gamut of disciplines from science to the humanities, and we'll include time for you to discuss your own outreach strategies, challenges and ideas.

### **Panel Guests:**

- **Dennis Aig**, Professor and Program Head, Science & Natural History Filmmaking Program
- **Dan Clark**, Director, Local Government Center
- **Jamie Cornish**, Outreach Specialist, Extended University
- **Bill McLaughlin**, Adjunct Professor, Department of Chemistry & Biochemistry
- **Kirk Miller**, Superintendent, Bozeman Public Schools

*Moderated by **Phyllis Dennee**, MSU Extension, and **Suzi Taylor**, Extended University*

*This workshop is worth  
1 unit toward the  
**Certificate of  
Teaching Enhancement.***
